

INTERNATIONAL RELIGIOUS FREEDOM ROUNDTABLE

Webinar: Recent Developments in Iran and its consequences for the Religious Minorities, Activists, and Ordinary People of Iran

Dear IRF Roundtable Participants,

International Organization to Preserve Human Rights and the Iran Working Group at International Religious Freedom are hosting a webinar to discuss the Recent Developments in Iran and the Plight of Religious Minorities and Prisoners of Conscience.

The recent disturbing rise of violent acts against religious minorities – transfer of Gonabadi Sufis to COVID-19 infested wards of prisons and internal exiles, burning of a Christian cemetery, setting fire to Mordeci’s shrine and widespread negative propaganda against Jews, arrests and sentencings of Bahais in different cities, negative propaganda against Sunni Sufis, to name a few – are not random acts by few thugs. Put together with the recent statements by Khamenei announcing the “Final Solution” and promise of a free Palestine soon, paint a very disturbing picture and hint at a sinister plan with dire consequences for the religious minorities and prisoners of conscience in Iran. The purpose of this event is to shed light on these new developments, discuss the reasons behind them and their ramifications for the oppressed groups in Iran.
